PR Newswire
HOUSTON

HOUSTON, July 26, 2017 /PRNewswire/ -- Service Corporation International (NYSE: SCI), the largest provider of deathcare products and services in North America, reported results for the second quarter of 2017. Our unaudited consolidated financial statements can be found at the end of this press release. The table below summarizes our key financial results:

(In millions, except for per share amounts)

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Revenue	\$ 773.2	\$ 751.4	\$ 1,551.0	\$ 1,500.6
Operating income	\$ 143.6	\$ 94.5	\$ 283.2	\$ 218.2
Net income attributable to common stockholders	\$ 68.5	\$ 15.6	\$ 243.2	\$ 63.1
Diluted earnings per share	\$ 0.36	\$ 0.08	\$ 1.26	\$ 0.32
Earnings excluding special items ⁽¹⁾	\$ 67.5	\$ 55.8	\$ 140.5	\$ 111.1

Net cash provided by operating activities	\$ 35.8	\$ 40.8	\$ 224.2	\$ 225.5
Net cash provided by operating activities excluding special items ⁽¹⁾	\$ 76.3	\$ 68.7	\$ 264.7	\$ 258.6

(1) Earnings excluding special items, diluted earnings per share excluding special items, and net cash provided by operating activities excluding special items are non-GAAP financial measures. These items are also referred to as "adjusted earnings per share" and "adjusted operating cash flow". A reconciliation from net income attributable to common stockholders, diluted earnings per share, and net cash provided by operating activities computed in accordance with generally accepted accounting principles in the United States (GAAP) can be found later in this press release under the headings "Cash Flow and Capital Spending" and "Non-GAAP Financial Measures".

Quarterly Highlights:

- Diluted earnings per share were \$0.36 in the second quarter of 2017 compared to \$0.08 in the second quarter of 2016. The second quarter of 2016 was negatively impacted by losses on business dispositions and losses on the early extinguishment of debt. Diluted earnings per share excluding special items was \$0.35 in the second quarter of 2017 compared to \$0.28 in the second quarter of 2016. The increase in diluted earnings per share excluding special items was primarily driven by higher operating profits led by a double-digit increase in cemetery revenue. These results were also bolstered by effective cost management, a lower tax rate, and fewer shares outstanding resulting from our ongoing share repurchase program.
- Net cash provided by operating activities was \$35.8 million in the second quarter of 2017 compared to \$40.8 million in the second quarter of 2016. The second quarter of 2016 was impacted by system transition costs and excess tax benefits from share-based awards, and premiums paid on early extinguishment which reduced cash provided by operating activities. The second quarter of 2017 was impacted by an IRS tax settlement payment and a pension settlement payment. Net cash provided by operating activities excluding special items in both periods as noted above was \$76.3 million in the second quarter of 2017 compared to \$68.7 million in the prior year quarter. The cash flow generated from earnings growth in the second quarter of 2017 was partially offset by higher expected recurring cash tax payments.

- During the second quarter, we returned \$64.7 million to shareholders through a combination of share repurchases and dividends and deployed \$22.1 million of capital primarily to accretive acquisitions and the construction of new funeral homes.

Tom Ryan, the Company's Chairman and Chief Executive Officer, commented on the second quarter of 2017:

"We are pleased to deliver another solid quarter reporting a 25% increase in adjusted earnings per share and an 11% increase in adjusted operating cash flow. Growth in cemetery revenue, effective funeral and cemetery cost management and a lower tax rate were the primary drivers of our double-digit adjusted EPS growth in the quarter. As a result of our strong performance in the first half of 2017, we are increasing our full year guidance for both adjusted earnings per share and adjusted operating cash flow to \$1.42 to \$1.52 per share and \$480 million to \$520 million, respectively. I would like to thank all 23,000 associates as these results could not have been achieved without the hard work and dedication of our entire team. In the second half of the year, we will continue to focus on growing our revenues by remaining relevant with the consumer, driving future market share by growing our preneed sales, continuing to leverage our increasing scale and deploying capital to enhance shareholder value."

OUTLOOK FOR 2017

Our revised outlook for Diluted earnings per share from continuing operations excluding special items is anticipated to exceed our expected long-term growth framework of 8%-12% after special items in 2016 and also includes an additional two cent benefit in the back half of the year from tax benefits recognized on the anticipated settlement of employee share-based awards. Additionally, our updated outlook for Net cash provided by operating activities excluding special items reflects expected cash tax payments of \$140 million to \$145 million, which is approximately \$10 million lower than our original expectations.

Our revised outlook for potential earnings and cash flow in 2017 is as follows:

(In millions, except per share amounts)

	Original 2017 Outlook	Revised 2017 Outlook
Diluted earnings per share excluding special items (Adjusted EPS) ⁽¹⁾	\$1.29 to \$1.43	\$1.42 to \$1.52
Net cash provided by operating activities excluding special items (Adjusted Operating Cash Flow) ⁽¹⁾	\$465 to \$505	\$480 to \$520
Capital improvements at existing facilities and cemetery development expenditures	Approximately \$180	Approximately \$180

(1)	Diluted earnings per share excluding special items and Net cash provided by operating activities excluding special items are non-GAAP financial measures. We normally reconcile these non-GAAP financial measures from diluted earnings per share and net cash provided by operating activities; however, diluted earnings per share and net cash provided by operating activities calculated in accordance with GAAP are not currently accessible on a forward-looking basis. Our outlook for 2017 excludes the following because this information is not currently available for 2017: Gains or losses associated with asset divestitures, gains or losses associated with the early extinguishment of debt, potential tax reserve adjustments and IRS settlement payments, acquisition and integration costs, system implementation and transition costs, and potential costs associated with settlements of litigation or the recognition of receivables for insurance recoveries associated with litigation. The foregoing items, especially gains or losses associated with asset divestitures and potential tax reserve adjustments, could materially impact our forward-looking diluted EPS and/or our net cash provided by operating activities calculated in accordance with GAAP, consistent with the historical disclosures found in this press release under the headings "Cash Flow and Capital Spending" and "Non-GAAP Financial Measures".

Non-funeral home revenue per contract sold	\$2,402	\$2,256	\$146	6.5	%

(1)	Atneed revenue represents merchandise and services sold and delivered or performed once death has occurred.
(2)	Matured preneed revenue represents merchandise and services sold on a preneed contract through our core funeral homes and delivered or performed once death has occurred.
(3)	Core revenue represents the sum of merchandise and services sold on an atneed contract or preneed contract and delivered or performed once death has occurred through our core funeral homes.
(4)	Non-funeral home revenue represents services sold on a preneed or atneed contract through one of our non-funeral home sales channels (e.g. SCI Direct) and performed once death has occurred.
(5)	Recognized preneed revenue represents merchandise and travel protection sold on a preneed contract and delivered before death has occurred.
(6)	Other revenue primarily comprises general agency revenue, which is commissions we receive from third-party insurance companies for life insurance policies sold to preneed customers for the purpose of funding preneed arrangements.

- Total comparable funeral revenue decreased by \$4.7 million, or 1.0%, in the second quarter of 2017 compared to the same period of 2016, primarily due to the decrease in general agency revenue driven by lower preneed funeral insurance production.
- The \$1.8 million core revenue decrease was primarily the result of a 0.1% increase in core services performed being offset by a 0.6% decrease in core average revenue per service. Organic sales average growth of 0.3% was offset by a 110 basis point increase in the core cremation mix to 46.7%.
- Recognized preneed revenue increased \$1.1 million, or 3.8%, primarily driven by an increase in both the number of contracts sold through our non-funeral home sales channel and the average price per contract.
- Comparable funeral operating profit increased \$3.4 million to \$91.9 million and the operating margin percentage increased 90 basis points to 20.3%, which is primarily the result of lower selling costs on lower preneed sales production coupled with effective cost management.
- Comparable preneed funeral sales production decreased \$6.1 million, or 2.8%, in the second quarter of 2017 compared to 2016. The decline in comparable preneed funeral sales production was primarily due to a \$15.7 million decrease in core preneed funeral insurance production offset by a \$7.8 million increase in core preneed funeral trust production. This resulted primarily from sales counselor productivity metrics being introduced into our sales personnel compensation plans, which resulted in a more acute emphasis on preneed cemetery property sales as well as terminally imminent preneed funeral trust sales.

Comparable Cemetery Results

The table below details comparable cemetery results of operations ("same store") for the three months ended June 30, 2017 and 2016. We consider comparable operations to be those owned for the entire period beginning January 1, 2016 and ending June 30, 2017.

(1)	Atneed revenue represents property, merchandise, and services sold and delivered or performed once death has occurred.
(2)	Recognized preneed revenue represents property, merchandise, and services sold on a preneed contract that have been delivered or performed and includes the related merchandise and service trust fund income.
(3)	Core revenue represents the sum of property, merchandise, and services that have been delivered or performed as well as the related merchandise and service trust fund income.
(4)	Other revenue is primarily related to endowment care trust fund income, royalty income, and interest and finance charges earned from customer receivables on preneed installment contracts.
(5)	Represents the ratio of current period core revenue recognition stated as a percentage of current period preneed and atneed sales production.

- Comparable cemetery revenue grew \$28.7 million, or 10.1%, in the second quarter of 2017 compared to 2016, led by an increase in recognized preneed revenue of \$27.6 million, or 15.4%. The growth over the prior year quarter is primarily due to increases in both the sales and recognition of cemetery property, as well as increases in cemetery merchandise delivered during the quarter.
- Comparable preneed cemetery sales production increased \$12.1 million, or 5.5%, quarter over quarter. The growth over the prior year quarter is due primarily to our continued momentum in large cemetery property sales.
- Comparable cemetery operating profit increased \$18.7 million to \$91.5 million and the operating margin percentage increased 360 basis points to 29.2%. The \$18.7 million increase in comparable cemetery operating profit was primarily the result of high margin core revenue growth when taking into account our fixed cost structure.

Other Financial Results

- General and administrative expenses increased \$3.8 million to \$40.6 million in the second quarter of 2017. The current quarter includes an increase of \$1.1 million due to certain pension termination settlements. The prior year quarter included \$4.9 million of system transition costs primarily related to our 2016 implementation of a new general ledger system. Excluding these costs in both periods, general and administrative expenses increased \$7.5 million compared to the prior year quarter due to higher insurance claims and increased costs related to the company's long-term incentive compensation program primarily tied to improvements in total shareholder return.
- The effective income tax rate for the second quarter of 2017 was 32.5%, down from the prior year second quarter rate of 51.3% for 2016. The higher effective tax rate for the prior year quarter was the result of non-deductible goodwill related to funeral home divestitures. Our adjusted effective income tax rate was 33.6% in the second quarter of 2017 compared to 37.7% in the prior year quarter. The reduction in our adjusted effective income tax rate was primarily the result of tax benefits recognized during the quarter on the settlement of employee share-based awards in accordance with a revised accounting standard for share-based compensation ^(A).

Footnotes

(A) In the first quarter of 2017, as required, the Company adopted ASU No. 2016-09, "Compensation - Stock Compensation (Topic 718) - Improvements to Employee Share-Based Payment Accounting," which recognizes the tax effect related to the settlement of share-based awards in income tax benefit or expense in the statements of earnings rather than in additional paid-in-capital. This ASU guidance also eliminates the requirement to reclassify excess tax benefits from operating activities to financing activities within the statement of cash flows. The impact of the restricted stock deliveries and option exercises in the second quarter of 2017 was a reduction to our adjusted provision for income taxes of \$2.9 million, which had the effect of increasing our diluted earnings per share excluding special items by approximately \$0.02 per share. The impact of the restricted stock deliveries and option exercises in the first half of 2017 was a reduction to our adjusted provision for income taxes of \$9.3 million, which had the effect of increasing our diluted earnings per share excluding special items by approximately \$0.05 per share.

Cash Flow and Capital Spending

Set forth below is a reconciliation of our reported net cash provided by operating activities prepared in accordance with GAAP to net cash provided by operating activities excluding special items (or sometimes referred to as adjusted operating cash flow). We do not intend for this information to be considered in isolation

or as a substitute for other measures of performance prepared in accordance with GAAP.

Cash taxes included in net cash provided by operating activities excluding special items	\$	64.3	\$	54.1
			\$	83.3
			\$	61.2

Net cash provided by operating activities excluding special items was \$76.3 million in the second quarter of 2017 compared to \$68.7 million in the prior year quarter. We experienced growth in our cash flows generated from increased earnings in the quarter, which was partially offset by an expected increase in recurring cash taxes of \$10.2 million and other working capital uses.

A summary of our capital expenditures is set forth below:

(In millions)

	Three Months Ended June 30, 2017		Six Months Ended June 30, 2016	
Capital improvements at existing locations	\$	24.9	\$	22.3
Development of cemetery property	15.9		33.0	
Subtotal	40.8		75.4	
Construction of new funeral home facilities	4.4		10.0	
Total capital expenditures	\$	45.2	\$	41.5
			\$	85.4
			\$	83.2

Total capital expenditures increased in the current quarter by \$3.7 million as we spent more on infrastructure improvements to remain relevant and on accretive new funeral home construction opportunities.

TRUST FUND RETURNS

Total trust fund returns include realized and unrealized gains and losses, interest, and dividends. A summary of our consolidated trust fund returns for the three and six months ended June 30, 2017 is set forth below:

	Three Months	Six Months
Preneed funeral	3.5%	8.1%
Preneed cemetery	3.4%	8.4%
Cemetery perpetual care	1.8%	4.4%
Combined trust funds	2.9%	6.9%

NON-GAAP FINANCIAL MEASURES

Earnings excluding special items and diluted earnings per share excluding special items shown above are non-GAAP financial measures. We believe these non-GAAP financial measures provide a consistent basis for comparison between quarters and better reflect the performance of our core operations, as they are not influenced by certain income or expense items not affecting continuing operations. We also believe these measures help facilitate comparisons to our competitors' operating results.

Set forth below is a reconciliation of our reported net income attributable to common stockholders to earnings excluding special items and our GAAP diluted earnings per share to diluted earnings per share excluding special items. We do not intend for this information to be considered in isolation or as a substitute for other measures of performance prepared in accordance with GAAP.

Cautionary Statement on Forward-Looking Statements

The statements in this press release that may be deemed forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, are made in reliance on the "safe harbor" protections provided under the Private Securities Litigation Reform Act of 1995. These statements may be accompanied by words such as "believe," "estimate," "project," "expect," "anticipate," or "predict" that convey the uncertainty of future events or outcomes. These statements are based on assumptions that we believe are reasonable; however, many important factors could cause our actual results in the future to differ materially from the forward-looking statements made herein and in any other documents or oral presentations made by us, or on our behalf. Important factors, which could cause actual results to differ materially from those in forward-looking statements include, among others, the following:

- Our affiliated funeral and cemetery trust funds own investments in equity securities, fixed income securities, and mutual funds, which are affected by market conditions that are beyond our control.
- We may be required to replenish our affiliated funeral and cemetery trust funds to meet minimum funding requirements, which would have a negative effect on our earnings and cash flow.
- Our ability to execute our strategic plan depends on many factors, some of which are beyond our control.
- Our credit agreements contain covenants that may prevent us from engaging in certain transactions.
- If we lost the ability to use surety bonding to support our preneed funeral and preneed cemetery activities,

we may be required to make material cash payments to fund certain trust funds.

- The funeral and cemetery industry is competitive.
- Increasing death benefits related to preneed contracts funded through life insurance contracts may not cover future increases in the cost of providing a price-guaranteed service.
- The financial condition of third-party insurance companies that fund our preneed funeral contracts may impact our future revenue.
- Unfavorable results of litigation could have a material adverse impact on our financial statements.
- Unfavorable publicity could affect our reputation and business.
- If the number of deaths in our markets declines, our cash flows and revenue may decrease.
- If we are not able to respond effectively to changing consumer preferences, our market share, revenue, and profitability could decrease.
- The continuing upward trend in the number of cremations performed in North America could result in lower revenue, gross profit, and cash flows.
- Our funeral home and cemetery businesses are high fixed-cost businesses.
- Regulation and compliance could have a material adverse impact on our financial results.
- Cemetery burial practice legal claims could have a material adverse impact on our financial results.
- We use a combination of insurance, self-insurance, and large deductibles in managing our exposure to certain inherent risks; as such, we could be exposed to unexpected costs that could negatively affect our financial performance.
- A number of years elapse before particular tax matters, for which we have established accruals, are audited and finally resolved.
- Declines in overall economic conditions beyond our control could reduce future potential earnings and cash flows and could result in future impairments to goodwill and/or other intangible assets.
- Any failure to maintain the security of the information relating to our customers, their loved ones, our associates, and our vendors could damage our reputation, could cause us to incur substantial additional costs and to become subject to litigation, and could adversely affect our operating results.
- Our Canadian business exposes us to operational, economic, and currency risks.
- Our level of indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, and may prevent us from fulfilling our obligations under our indebtedness.
- We rely extensively on information technology systems, some of which are managed or provided by third-party service providers, to analyze, process, store, manage, and protect transactions and data.
- Failure to maintain effective internal control over financial reporting could adversely affect our results of operations, investor confidence, and our stock price.
- The application of unclaimed property laws by certain states to our preneed funeral and cemetery backlog could have a material adverse impact on our liquidity, cash flows, and our financial results.
